

R8: Grocery List Test Run 7/16/2025

This test run verifies the functionality of the Grocery List module in the Tasty App.  
Covered scenarios include adding single ingredients from individual recipes, merging identical ingredients across multiple recipes, removing individual items, and clearing the entire list.

All cases are executed on Windows 10 / Chrome 138.0.7204.101 (64-bit) – desktop view.
